PROFILE

I'm a graphic designer with 5+ years of experience across agency, technology, retail and media work. In 2026, I worked with Brief Agency on client projects ranging from websites and company profiles to social campaigns and email/WhatsApp assets. I'm strongest at taking a brief, finding a clear visual direction, and keeping that direction consistent across every format. I also use AI tools for image generation, concept exploration and promotional ad videos. Earlier in my career, I worked hands-on with video editing.
